

GRANT APPLICATION

Please consult the procedure on our website:

Send a digital copy to info@fshd.nl

1 APPLICANTS	
a Lead applicant	
Name	
University/Institute	
Department	
Postal address	
Phone	
Email	
b Co-applicant (if applicable)	
Name	
University/Institute	
Department	
Postal address	
Phone	
Email	
2 TITLE (max. 80 characters each)	
English	
Dutch ('lekentitel')	
3 PROJECT CHARACTERISTICS	
Duration	... months (max 1 year)
Requested support (max. € 50.000,-)	€ ...
4 SUMMARY (max. 350 words total)	
Background of the project	
Hypothesis & study objectives	
Materials, methods & study design	
Expected results	
Word count section 4: ... (max. 350)	

5 PROJECT GROUP (principal participants involved in the grant application)			
Name, academic degree	Discipline/expertise	Employed by	Hrs/week on project

6 PREVIOUS GRANT APPLICATIONS

Has this grant proposal (or a similar version) been previously submitted to the FSHD Stichting?
 Yes No

If yes,
 Grant application no.:
 Briefly describe which parts of the proposal have been revised and motivate these changes (max. 250 words):

Is this grant application a continuation of a previous project for which a grant of the FSHD Stichting has been received?
 Yes No

If yes, grant application no.:
 Briefly describe reason for new submission (max. 250 words):

7 IMPACT (max. 900 words total)

a Indicate in which domain the project will take a next step on the road to therapy

Children with FSHD
 Quality of life
 Other, i.e.....

b Patient participation

In what way have patients been involved in the design of the project?

In what way will patients be involved during the project and implementation?

In what way will results of the project be communicated to study participants and other patients?

Section word count: ... (max. 500)

8 RESEARCH LINE (max. 500 words total, excl. references)

Previous research of the applicants (relevant to the proposal)

Structure of the project group and available expertise
Embedding and infrastructure including future research
Relevant publications (max. 10)
Section word count: ... (max. 500 excl. references)

9 RESEARCH QUESTION (max. 500 words total, excl. references)
Description of the project
Hypothesis
Objectives
Pilot data (please show relevant previous results)
Relevant publications (max. 15)
Section word count: ... (max. 500 excl. references)

10 RESEARCH PLAN (max. 750 words total)
Patients / materials & methods
Analysis / methodology (e.g. power analysis)
Detailed time schedule
Section word count: ... (max. 750)

11 DEVELOPMENT AND IMPLEMENTATION PLAN (max. 500 words total)
Describe the steps to be taken after completion of the current proposal to receive additional grants.
Describe the steps to be taken when the pilot study does not lead to positive results.
Section word count: ... (max. 500)

12 ETHICS

a Human

Will the study include:

- Healthy individuals / materials of healthy individuals
- Patients / patient material

Does your application need the approval of the local medical ethical committee?

- Yes No

If yes, the approval of this committee:

- Is enclosed
- Is requested
- Will be forwarded

If no, why is approval not required?

b Animal

Will experiments be performed with animals?

- Yes No

If yes,

Animal species:

Number(s) annually:

Nature of the experiments:

Does your application need the approval of the Central Authority for Scientific Procedures on Animals (CCD in the Netherlands)?

- Yes No

If yes, the approval of the CCD:

- Is enclosed
- Is requested
- Will be forwarded

If no, why is approval not required?
